# Bizearch.in — Master Platform Feature Catalog

Comprehensive breakdown of all system capabilities from frontline micro-utilities to full-stack super administrative governance and ad infrastructure.

| 7 Modules | 60+ Features | 4 Languages | 100% Audit |
|---|---|---|---|
| CORE SUBSYSTEMS | BUILT & VERIFIED | REGIONAL MULTILINGUAL | 1-YEAR PDF/XLSX LOGS |

## 1. Micro-Features & Quick Utilities

SMALL FEATURES • 1-TAP ACTIONS

*Frictionless convenience tools and quick-action triggers designed for instant, high-speed user actions on mobile and desktop.*

- **1-Tap Direct WhatsApp Connect**
  Instantly opens the official WhatsApp chat with the store owner, automatically pre-filling the inquiry text and customer inquiry details with zero typing required.
- **1-Tap Direct Phone Call Dialer**
  Triggers the merchant's verified direct phone number straight into the user's mobile dialer with zero middleman call centers.
- **1-Tap Google Maps Navigation**
  Launches turn-by-turn Google Maps driving or walking navigation using exact latitude and longitude coordinates pinned to the shop front.
- **Native Web Share API Integration**
  Allows 1-click sharing of store storefronts, product catalogs, and promo offers across WhatsApp groups, Telegram, Instagram, and SMS.
- **Live Store "Open / Closed" Indicator**
  Real-time status badge that dynamically calculates current store status against operating hours and displays a green/red pill.
- **"Top Rated 4.5+ ★" Quick Filter Chip**
  Single-tap discovery filter enabling shoppers to immediately isolate top-rated local establishments based on customer reviews.
- **"WhatsApp Ready" Quick Filter Chip**
  Instantly isolates merchants who accept direct orders, inquiry chats, and price estimates over WhatsApp.

- **"Verified JIT Badge" Trust Filter**
  Filters stores that have undergone on-ground physical inspection by JIT field verification agents.

- **Interactive Radius Slider (1 km to 50 km)**
  Dynamic, real-time radius selector adjusting neighborhood search boundaries instantly without reloading the page.

- **Cash Desk Countertop QR Code Generator**
  Generates dedicated, high-contrast QR codes for store cash registers so visiting customers can scan, bookmark, and reorder from home.

- **1-Click Copy-to-Clipboard**
  Fast copying of phone numbers, physical addresses, bank details, and direct store URLs with instant tooltip confirmation.

## 🔍 2. Customer Discovery & Community Experience

SHOPPER • RESIDENT TOOLS

*Hyperlocal search engine designed to connect residents with nearby shops, services, emergency help, and verified prices.*

- **Intelligent Hyperlocal Search Bar**
  Multi-attribute search engine indexing store names, keywords, item titles, services, and micro-neighborhoods with real-time suggestions.

- **Dual-Mode Locality Selector**
  Seamless switching between granular local neighborhood hubs, commercial markets, and All-India exploration.

- **Automatic GPS Geolocation Pinning**
  Captures browser coordinates with transparent user consent to calculate real Euclidean driving/walking distances from user to storefront.

- **4 Regional Languages Switcher**
  Native multi-language UI supporting English, தமிழ் (Tamil), ಕನ್ನಡ (Kannada), and తెలుగు (Telugu) for seamless community adoption.

- **A–Z Master Product & Service Directory**
  Alphabetically cataloged master index linking thousands of items and services directly to local stocking merchants.

- **Interactive Custom Quote & Estimate System**
  Enables shoppers to request price estimates directly from businesses, logging full inquiry history and dispatching notifications to merchants.

- **Star Ratings & Verified Reviews**
  Community reviews with 1–5 star ratings, feedback commentary, and verified reviewer badges preventing spam reviews.

- **Floating Emergency SOS Panic Button**
  High-priority floating SOS trigger broadcasting live coordinates to local emergency contacts, hospitals, and police helplines.

- **Customer Profile & Address Book**
  Dedicated account portal storing delivery coordinates, emergency contacts, past inquiries, and review history.

## 3. Merchant & Store Owner Toolkit

BUSINESS ONBOARDING • SALES

*End-to-end digital storefront builder giving retail shops the digital capabilities of big e-commerce platforms.*

- **Self-Service Merchant Registration**
  Quick 60-second onboarding form capturing business details, categories, subcategories, physical addresses, and contact numbers.

- **Storefront Photo & Banner Uploader**
  High-capacity media uploader allowing shop owners to showcase storefront signage, interior photos, and product shelves.

- **Live Product Catalog Builder**
  Allows merchants to list products, service menus, prices, discounts, and inventory status with instant visibility to nearby shoppers.

- **Real-Time Lead & Quote Inbox**
  Direct customer price inquiries arrive directly on the merchant's mobile device with verified phone numbers for immediate closing.

- **0% Commission Guarantee**
  Merchants retain 100% of order values and customer payments with zero commission cuts or transaction surcharges.

- **On-Ground JIT Verification Seal**
  Field-verified physical certification seal boosting customer trust and giving priority placement in local search results.

- **Doorstep Field Agent Assistance**
  Busy shop owners can request a visiting JIT field agent to digitize their storefront, capture photos, and configure catalog items free of cost.

## 4. Field Agent & Verification Network

FIELD OPERATIONS • GROUND TRUST

*On-ground operations module coordinating neighborhood field agents, verification audits, and physical*

*geotagging.*

- **Field Agent Registration & Portal**
  Dedicated onboarding workflow for regional field verification agents with credentials and assigned operational zones.

- **Doorstep Store Verification Protocol**
  Structured verification pipeline where agents visit physical store locations, verify shop ownership, and inspect business legitimacy.

- **Precise GPS Store Geotagging**
  Field agents capture on-site latitude/longitude pins directly from their mobile devices, ensuring pin-point navigational accuracy.

- **Store Delisting & Removal Pipeline**
  Agents can submit structured removal requests for closed, relocated, or fraudulent stores, accompanied by audit notes and review logs.

- **Super Admin Agent Oversight**
  Real-time performance metrics tracking businesses verified per agent, pending reviews, and 1-click agent enable/disable controls.

## 5. Hyperlocal Advertisement & Analytics Engine

MONETIZATION • ANALYTICS

*Precision ad-serving engine delivering relevant banner promotions to shoppers strictly within the merchant's target delivery radius.*

- **Hyperlocal Radius-Targeted Banner Ads**
  Serves sponsored store banners exclusively to users located within the merchant's chosen kilometer boundary.

- **Impression & Click Tracking Engine**
  High-throughput tracking engine recording every ad view and customer tap with fraud-prevention filters.

- **Ad Booking & Media Upload Portal**
  Self-service ad booking workflow allowing merchants to select placement duration, set budgets, and upload banner graphics.

- **Super Admin Ad Moderation Queue**
  Editorial control center to review ad creative banners, verify destination landing pages, and approve, pause, or reject campaigns.

- **Dedicated Ads Activity Log Module**
  Separate, standalone audit module recording all advertising transactions, impression logs, clicks, campaign approvals, and ad renewals.

- **Ads Analytics Export to PDF & XLSX**
  1-click export of complete ad performance and revenue logs into formatted Microsoft Excel (.xlsx) and printable PDF reports.

## 👑 6. Super Admin Workspace & Governance Center

ENTERPRISE CONTROL • FULL AUDIT

*Unified command center providing platform oversight, account lifecycle management, security audits, and data export tools.*

- **Executive KPI Dashboard**
  Real-time overview tracking total business listings, verification ratios, active ad campaigns, customer registrations, and platform revenue.
- **Business Approvals & Delisting Center**
  Review pipeline to evaluate submitted store profiles, approve verified badges, or flag and delist non-compliant businesses.
- **Customer & Agent Account Suspension Controls**
  1-click enable/disable toggle allowing super admins to ban or deactivate accounts without deleting historical transaction records.
- **Permanent Customer Onboarding Audit Vault**
  Comprehensive database tracking all customer registrations, mobile OTP verification timestamps, full physical addresses, and GPS consent.
- **1-Year Activity Log & Audit Archive**
  Enterprise-grade 1-year persistent log storing logins, password updates, quote submissions, SOS triggers, OTP requests, and admin actions.
- **1-Click Activity Log Exports (.PDF & .XLSX)**
  Full audit log export pipeline generating formatted Excel (.xlsx) spreadsheets and printable vector PDF compliance documents.
- **Dynamic Registration Form Customizer**
  Visual form builder allowing super admins to add, reorder, or customize fields across customer and merchant onboarding forms.
- **Emergency Safety SOS Response Center**
  Centralized distress monitoring hub displaying incoming emergency alerts with live pinned GPS coordinates for immediate emergency dispatch.
- **Platform Support & Contact Configuration**
  Centralized controls to update official customer care numbers, emergency helplines, WhatsApp support contacts, and support email addresses.

## 7. Poster Studio & Marketing Acquisition Suite

OFFLINE GROWTH • PRINT STUDIO

*Professional vector design suite generating print-ready promotional posters for merchant field acquisition and street marketing.*

- **Merchant Growth Poster Generator**
  Standard A4 ratio (1000 × 1414 px) full-bleed canvas featuring balanced, gap-free typography and 8 merchant feature cards.
- **Dec 10, 2026 Limited-Time Early Bird Promotion**
  Prominent deadline badges and promotional ribbons: *"Register before Dec 10th, 2026: FREE Business Listing for 1 Full Year!"*.
- **Sector Onboarding Bar & 3-Step Simple Flow**
  Integrated category strip showcasing retail sectors welcomed and a clear 3-step guide for local shop owners to onboard in 60 seconds.
- **All-Features Platform Showcase Poster**
  Consumer-facing promotional poster highlighting localized search, SOS safety, 4 languages, and direct WhatsApp ordering.
- **Automated Dual-Format Exporters (2× PNG & Vector PDF)**
  Automated Puppeteer rendering pipeline exporting crisp 2000 × 2828 px retina images and print-ready A4 vector PDFs.
- **In-App Live Route (/poster)**
  Integrated Next.js interactive route with 1-click browser printing, offline standalone HTML files, and variant toggling.
